

PORTRAIT PLANNING GUIDE

Thank you so much for choosing Studio Two Eleven for your portraits!

Around three weeks after your session, we will place your picture in an online gallery for you to review. These pictures will be online for two weeks. Each photo is labeled with an image number, so you can easily note your favorites.

Please use this worksheet to help organize your portrait order. Take time to walk around your home and see which spaces need to be filled with a single image or with a display collection.

Gathering measurements of your spaces will ensure we can make the right decision for the correct sizes needed for your spaces. Feel free to email or call the studio before your gallery expires if you need assistance or suggestions.

We are happy to help you!

Most clients like to showcase their favorite image from a session for a special display.
